Search this forums using the search function, and search for "Global Serial".

hi pal,
if im not mistaken u dont need an fds serial anymore,
u can use your renegade game serial instead.

Well HTH

You can't use your game serial to install it though

What you need to do is where it asks you for a serial, type in 0669 and then a whole bunch of zeros until it stops..that will get the FDS installed. Then, when you go to configure server.ini, change the serial to your game serial.
