OK so I have my server set up... with the following:

Scripts.dll Version 2.5
SSAOW 1.5 (for scripts.dll 2.5)
Scripts.dll/SSAOW Modded (by me)

What I want to do next is covert to 2.9.2. I don't have VC++ 2005 so I can't use the download of that (if I can get an older version of the same vcproj that works with 2003, even better). But I was given an idea by someone to find the changes between 2.5 and SSAOW 2.5, then add those changes to 2.9.2 to get SSAOW 2.9.2. Problem is, I have SSAOW 2.5, Scripts 2.9.2 source, SSAOW 2.9.2, but I can't find the source to scripts 2.5, because it's so old.

Does anyone have a VC++ '03 version of scripts.vcproj (preferably... for SSAOW ported to 2.9.2) or a copy of the Scripts 2.5 Source?

Thanks in advance.
