I couldn't help but notice the hundreds of posts about how Trooprm02 dodged my 1v1 challenge.

There's one small point though:

I didn't challenge him. He challenged me. I honestly don't care if we 1v1, I'll play if it crops up but I really don't care either way.

You mean the "ballstein" playing In jelly #2 who was 1/17? Im not wasting my time on your bullshit playing. Get 2 friends, and ill play you 3vs1 idk. I dont even remember challenging spoony, althought I could be wrong, someone finds where I said "1vs1 spoony?" and Ill play. And considering i have a 100% record, you dont have to worry about that.

btw, im not to sure, but im guessing running the ren ladder @ cw.cc takes alot of time and alot of ren playing, so it even really woundlnt be a real game if he plays almost 24/7 for the past alot of time (sorta like f100d3d) while I get into public servs once a week. Its like cs, the more you play, the faster you get better so ppl like f00d3d (and maybe spoony, im not sure about him) have a huge advantage over reg players obviosuly...

Hey dickfuck, the only time i've ever seen your stupid ass ingame was when I joined in late and half of our base was gone. It's kinda hard to do much when u start out with no ref, and no hand and they have everything including base defenses. Talk shit when u actually see me play a full game.

Dont even try to talk buddy. Im glad your not in a state of denial like VERY many other people. The thing is, you suck balls cause you also played the next map (under) and if I remember correctly you had a deadeye and I engi pistoled you? At first I didnt even think it was you considering I thought it might be someone who just started playing the day before, but you confirmed my beleifs so stop wasting my time

Spoony, thats alot of games, and Im sure we can agree that does give you (atleast) some of an advantage. Althought, i would be interested to see just how much so maybe eventually we can 1vs1

Well, we ended up playing 2 games today. The first game he pretty much beat me but started screwing around. He took out both the ref and bar, then was hitting wf. I had a hottie and was repairing and he ran in and threw his timed on then ran back to his arty and kept shooting at wf. I ended up getting enough for a med and killed his arty then took off to his base. Killed strip then I guess he got a sbh/nuke and went to my base. I ran into ref and planted my c4, and started shooting hand. He layed his nuke but I was able to come back and destroy his base. The 2nd game I was nod this time and I ended up killing his engi with mine and started running towards his base. He got an apc so I ended up just killing myself. I got a tech and hid in the hand and waited for him to come to my base. He got out at strip so I jumped in his apc and took out his wf. This last game wasn't really supposed to happen, he did say before that it would be only one game, but we started playing this one. Once I took out the wf, we ended it there.

GG's Troop, i'm not gonna talk shit or anything, just basically letting people know that u didn't dodge.

Definately gonna play again.

So basically, the first game I won, and he acknowledge it. The last bit I got cocky and let him have my base cuz i was gonna nuke his wf. Anyway, I won mvp on that map, so +1 for me. Then i said i g2g, but i decided to play another game (2am my time) and I actually dont remember what happened, but I played the start anyway. He was up 200 points I think. The other game I won by 2k i think. I got ss's of everything too, but too lazy to dig em up with all the rest. Anyway, I saw him ingame, he was doing better than his 1/17 i saw last time, so I decided he might be worth my time PM'd him a 1vs1 and it was just a quick thing. If you call the last game a win, its 1-1. I guess 1 more game would settle it

Where are u from? U say Canada, but i'm in mountain time (US) and it was around 9:15 or so when we played. It would have been no later than 12:15 am your time if u r on the east coast of Canada.

edit: you did bet me 1 game after I rapedd your base except for barr, and I got cocky and was messing around which lead to you winning the map, but me still ahead by 500+ points, so call that a victory if you want....

Umm, are u talking about the 3rd game that we played on mesa which if u wouldn't have left the game after I placed my c4 on the ob and layed an ion at the ref, yeah, I won that one.

trooprm02

edit: you did bet me 1 game after I rapedd your base except for barr, and I got cocky and was messing around which lead to you winning the map, but me still ahead by 500+ points, so call that a victory if you want....

Umm, and as far as I know, if u destroy a base then u win, even if the other person has more points than u. BUT.....I said that u pretty much beat me and then started screwing around and I ended up killing your base. But, u have it all wrong, cause u took out my bar and ref, leaving me the wf. Do I really need to remind u?

So we played 3 games now. The 1st, like I said, u beat me but we never stopped playing and I ended up winning. So we'll give that one to u. +1 Troop. The 2nd was the game we really weren't supposed to play but we did anyway. U quit right after I took out your wf. Remember, u bought an apc and rushed with engi so I got a tech and hid in hand till u jumped out of it and ran into strip? +1 Ballstein The 3rd game....see above. +1 Ballstein

That equals +1 for me, thanks.

11/21/2006 9:37:35 PM -1 Spoony trooprm02 here:P

11/21/2006 9:37:38 PM -1 Spoony got a question

11/21/2006 9:37:40 PM Spoony -1 afternoon

11/21/2006 9:37:41 PM Spoony -1 shoot

11/21/2006 9:37:44 PM -1 Spoony alrighty

11/21/2006 9:37:48 PM -1 Spoony i just made a clan

11/21/2006 9:37:55 PM -1 Spoony but i f'd up the tag

11/21/2006 9:38:02 PM -1 Spoony and it says i cant chnage it

11/21/2006 9:38:11 PM -1 Spoony so is there anyway i can just delete the whole clan>?

11/21/2006 9:38:12 PM -1 Spoony

11/21/2006 9:38:14 PM Spoony -1 yes

11/21/2006 9:38:16 PM Spoony -1 leave it

11/21/2006 9:38:30 PM Spoony -1 and have anyone else leave it if there are other members (or if you're the clan boss, kick them)

11/21/2006 9:38:38 PM Spoony -1 when a clan's empty it's deleted

11/21/2006 9:38:45 PM -1 Spoony ok, sounds good

11/21/2006 9:38:47 PM -1 Spoony another thing:P

11/21/2006 9:39:08 PM -1 Spoony i know i wont be able to play as much as the other guys, so no point in trying to be #1 for the month etc

11/21/2006 9:39:27 PM Spoony -1 big deal, h2o win every month anyway

11/21/2006 9:39:38 PM -1 Spoony but since im just playing to play with better ppl, can i just play and not report anything?

11/21/2006 9:39:55 PM Spoony -1 i strongly suggest you report the games

11/21/2006 9:40:11 PM -1 Spoony ok

11/21/2006 9:40:14 PM Spoony -1 it only takes like 30 seconds for each one

11/21/2006 9:40:20 PM -1 Spoony oh ok:P

11/21/2006 9:40:27 PM -1 Spoony and how would i report stuff?

11/21/2006 9:40:30 PM Spoony -1 in fact, most people report a loss while the game's still going

11/21/2006 9:40:51 PM Spoony -1 renegade league (<http://clanwars.cc/?league=25>) >> login >> "Report a Loss" from the list of links from the left

11/21/2006 9:41:02 PM Spoony -1 then it'll ask you to fill in the enemy clan, the players, and the map

11/21/2006 9:41:17 PM Spoony -1 you report your losses. for your wins you dont need to report the loss, just keep a screenshot and save it

11/21/2006 9:41:43 PM -1 Spoony ok, so only the losers report stuff?

11/21/2006 9:42:06 PM Spoony -1 typically your enemy clan who you defeated, SHOULD report the loss. sometimes they're bitches about it and they dont, in which case you can file an Auto Report, which means go to <http://smak.clanwars.cc> >> renegade Audit section >> post a thread with the screenshot(s)

11/21/2006 9:42:30 PM Spoony -1 after you do that, one of the admins will add the game, and give the loser clan a point penalty for not reporting their loss

11/21/2006 9:42:58 PM -1 Spoony ok, sounds good:)

11/21/2006 9:43:00 PM -1 Spooky thanks:P

11/21/2006 9:44:13 PM Spooky -1 i'm glad you're joining the league btw, always nice to see new clans participating

lol Yep, when we first started game we ran into each other with engies. I kill him and started running toward his base. Harvi by then dumped and I saw him buy an apc. I killed myself to get back to base, bought a tech and waited for him to get to my base. When he did, he jumped out at my strip and ran in, so I jumped out of the hand and ran to the apc, took off and got his wf. Then he quit.

Like i said, that was with a junk acocunt "0wNz3r" or something like that. According to mex's SS's, used a "trooprm02" account (which i did have wayy back and forgot the pass so didnt use it, hence my junk acocunt). Spooky just check+post the last date an account by the name "trooprm02" had logged in, and I have proven my point.

Ok, now u are a fucking douce. Way to try to manipulate the score at that time. When u were taking that screenie I was in the process of killing your hand and strip and then drove back to base. I killed u and that arty and then refilled my c4 and bought another ion. The 1st screenie of mine is right after I layed ion I was driving to your ob to lay down my c4. I just killed u and u were screaming wtf and shit. The 2nd one is after I lay c4 on ob I drove back to ref to cover ion and that's when u said I got2go, brb. That's pretty fucking gay that you'll say that u won when u clearly left the game before it was over, and, even though u had a higher score than me at the time that would have changed right after both your buildings were dead. Dumbass.

Oh, and that first screenie of yours is of the game where I said u won but we didn't stop playing and I ended up coming back to win. THAT DOESN'T MATTER!!!! I ALREADY SAID THAT U WON!!! JESUS.....

I don't think you understand... the trooprm02 account on the Clanwars.cc league was made by you, and the XWIS name "trooprm02" is clearly you as well, meaning a player on the Clanwars.cc can technically get a game vs you added as a league match, which mexpirate did.

If this bothers you, you can simply leave your clan on the league system.

And he screenshot is from the battlelogs... league > battlelogs > look at a particular game.

Ballstein, the first SS shows nothing but u killing me and me in the lead by 1000+ points.. The second one just shows me leaving, and I guess I presumed you agreed I had already won considering by huge lead and overall position in the game. What ISNT there, is exactly what YOU said, and that being the so called "ion" and c4's, so basically you proved yourself wrong, GJ

Spoony, I meant to ask about how the pruning of accounts work, cuz I dont think i ever logged into that account because I forgot the pass, talked to you about it, but in the end decided to start the new account. But if someone wants to register fake win's against fake players who dont even play there, thats their choice I guess

Dude, that's bullshit. If u didn't notice that that first pic show's all of your base destroyed except the ob. U can't see the ref, but u can see the star from my ion layed there on both screenies.

Fake wins against fake players is called pointpushing and I ban people for it. I fail to see how this is a fake win against a fake player.

If you check for yourself, you would see that, that account was never even verified because I never got conf. email, which I talked to you about, then just decided to make another account. OK, just drop your conspiracy theories for five seconds and try to see what's right in front of you.

Two instances of a player logging in to your account. The first was when the account was created, May 2006. Obviously you, you haven't denied that part, and the account was created on your e-mail address anyway. Meaning, nobody else could log on to your account because there is no way they could get the password.

The second time was 21st November. That date look a little familiar?

11/21/2006 9:37:35 PM -1 Spooky trooprm02 here:P
11/21/2006 9:37:38 PM -1 Spooky got a question
11/21/2006 9:37:40 PM Spooky -1 afternoon
11/21/2006 9:37:41 PM Spooky -1 shoot
11/21/2006 9:37:44 PM -1 Spooky alrighty
11/21/2006 9:37:48 PM -1 Spooky i just made a clan

Now, not only does this show you logged into that account on 21 November (because if you want to create a clan you must first log in with a warrior account, there is no other possible way to do it), it also shows that the account was originally created by you, because if someone else made it without your knowledge, you wouldn't know the password.

trooprm02 wrote on Mon, 05 March 2007 09:57 And the AR thing, so when he did that he automatically renewed my account? So basically anyone on cw.cc can post wins against players that are inactive or have left just because you guys dont prune accounts? Point Proven? I think so

Your warrior account was, and is, still in a valid clan. I've already said to you that if you don't want any games against you to be valid Clanwars.cc matches, there's only one thing you need do: leave your clan on the league system.

Inactive accounts eventually get deleted anyway, but it takes a few months for that to happen. As for inactive, I personally don't remember you ever making a formal declaration to the admins that "I'm leaving, I don't want any games to count on your league" or some such... and no wonder, because simply leaving the +TRPM+ clan on the league system would be quicker anyway and achieve exactly the same thing.

The IP record has not been edited in any way. I did not log into your account. If you recall, you apparently didn't know who created +TRPM+ on the league, so I showed you a screenshot of your player HQ from the admin panel to demonstrate the fact that it was, of course, you. My WHOLE point is that he didnt even answer the original question about him being logged into the "trooprm02" account but his IP not showing in all the IP's that have logged into the account so this means 3 things:

- 1)edited ss?

- 4)my account was being used, by ATLEAST him.

no, it means one thing: I, as a player, DID NOT LOG IN TO YOUR ACCOUNT. I'm a league admin and as a league admin I can access your player HQ and stuff. The only reason I did that was because you apparently were in a state of confusion over who created the clan and account

on my league, so I - wait for it - ANSWERED YOUR QUESTION.

Do I know your password? No. Does an admin NEED TO to show you a screenshot of your player HQ? No. Did I do anything with your account other than look at your player HQ to answer your question of who created your clan (you)? No.

trooprm02 wrote on Thu, 08 March 2007 19:133)you can register fake wins against fake players who are inactive or dont see the loss cuz of the reason stated above.
It is not a fake win and it is not a fake player. It might be a fake win if one of the following were true

- you were not "trooprm02" in the game against MexPirate
- you are not the "trooprm02" warrior account on the league

If you recall, I asked you these things two pages ago because I actually don't allow "fake wins" on my league. But here's the rub: they aren't fake wins. You're the one in that game, you're the one who made the warrior account on the league. The game was real and it is a valid league match.

trooprm02 wrote on Thu, 08 March 2007 19:134)my account was being used, by ATLEAST him.

re-read the first paragraph. As for the 18 days inactive, that's because eighteen days before that screenshot was taken, a game vs another player (mexpirate) was filed. Therefore, according to the league, you were active 18 days before that screenshot was taken.

date the game was reported: February 11th

date this screenshot was taken: March 1st

on March 1st the trooprm02 account's time inactive: 18 days

difference between Feb 11th and March 1st: 18 days

what's hard to understand here?

Spoony stop hacking peoples accounts, let's look at the facts ffs:

You logged in to his account - how can you expect us to believe that being the head admin of the league somehow allows you to view basic information about a clan.

You obviously edited these screenshots, or else that would support your argument and provide undeniable proof that you are right, that can't be the case cos troop knows all so therefore you edited them.

You failed to know that troop was inactive and wanted his account deleted, you didn't come on this forum or contact him directly as a player in your league and inform him that he would have to spend 10 seconds doing this himself, so you fail at life.

Because of your failures this fake win got reported, the fact that the match happened on legal warrior names and evidence was provided for the game means nothing - why didn't you realise that troop had forgotten about setting up an account, a clan, speaking to you and any rules about said league so you should have not reported the match and perhaps let troop make the rules for the league - he does know everything after all.

As for his account showing active 18 days ago - how does that work, sure a game was registered and it was played but troop didn't report it so ummm for some reason it doesn't count, after all troop says so.

Just feel lucky that we have someone like troop here to show us all what we should be doing as obviously none of us have a clue.

kid, STFU. Keep your fucking shithole of an "exsistance" off these forums. great to see BBF supports cheaters (killer not new to this concept of cheating either). Who gives you the fucking right to start over (new ip, nick etc)? I wouldn't surprised if BBF told to do this

Nope, he was in the clan the whole time, as you know BBF has a horrible (and i mean HORRIBLE) reputation when it comes to cheaters, but im sure you already knew this. The fact is, he cheated, he in BBF (which is bad enough, let alone to cheat), admitted to it, I suppose he got caught and knew the person was going to put ti together anyway, tryed to appeal to his clan/renforums, failed and instead they aggreed on the fact he would have a "clean start", he said he'd change his ip and nick etc, hence another moment in time BBF supports cheating

You're retarded dude, BBF kicked him out when they found out that he cheated. TRPM also had cheaters in it, gg?

Still doesn't change the fact that Cheekay is a retarded cheater but BBF didn't support him or his cheating. Notice how many actual BBF members said they would leave if he was ever accepted back into the clan? They didn't say anything about him having a clean start, that's what he said haha. Then members from BBF flamed him about this as well.

Honest to god, Troop, I havent even touched the game since...I got kicked outta my clan?

Oh, Btw, You're gunna have to re-find my IP in a few months, im not changing it, im just moving, into my own place.

So, I think Juneish, do another search, just to make sure that you get me banned offa most servers that I never play on anyways.

And, to cover BBF, they had no knowledge I was cheating, they kicked me out as soon as they found out, most of their members, veteran ones anyways, dispise cheaters.

And, I was only in the clan maybe two weeks, before I went my own way >_>. "The Whole Time" Wow, Your making it seem like i was cheating for months.

I didnt know a few days of fun, is considered a dam long time.

And, they said after my 3 month ban, it would be up for consideration.

Not guarenteed.

Besides, I dont want back into that clan Mex would leave, and I'm not going to make him change clans over the fact they have a known cheater in it.

fucking expected. "ok well you cheated, but can come back in 3 months". Wow, you really are screwed now, no BBF for 3 months? Don't worry tho, the've supported cheaters in the past (go back all the way to the time I was at +ILL+) so they will defifently take you back

"considerably"? ROFL. I heard 2 ex-clan people tryed big bodies, I immeadiatly banned them (FOR LIFE) from the clan, and made it very visible to everyone that they cheated (even if for once, or testing or w/e). The funny thing is 1 joined another clan, R*R, but they blow anyhow even with a cheater. The point is, its not "ok well you cheated but come back in 5 months", if that was the

max punishment everytime, im sure cw.cc would be full of cheaters who would take the risk because if they get caught it don't mean shit all. Like they say, once a cheater, always a cheater

Firstly five months is actually a very long time in the world of competitive clanning. Secondly cheating usually = an indefinite ban. Robo was a special case, in that he actually confessed to the admins about cheating - a rarity to say the least. (of his own accord, not because he was forced or pressured to, or even because he was particularly suspected)

At the time Robo was banned, he was not told he'd be unbanned 5 months down the line.

There was also a community vote on the matter, and Robo's shown not even a hint of cheating or foul play whatsoever since he's been unbanned.
