Bad estimating - it's roughly £5 for Englanders. It's completely worth it too.

Still going to send? (Joking)

I like GMod 9, It's Free and i'm gonna assume it's the same as Gmod10 only with a few fancy menus?

There are a lot more features in Gmod10, I would say its worth the \$10. Only thing is that im too busy with life and mods to play it much. Plus it doesnt run too great with onboard video (my 7600 melted awhile ago and im waiting for a replacement).
