I was exiting out of my Renguard today and its window was full of SQL errors.

See attached screenshot for details.

I am using the latest BETA.

Looks like it's serverside to me.  
(Do correct me if I'm wrong)

---

That was a temporary issue with the RG backend database. Nothing wrong with the client, but thanks for reporting it.

I figured it had to do with the backend not client side.

Not a problem Blazer.
