Wow, that is almost not understandable.

I take it you are mad at this server because they kicked you, and an APC was blocking the PT.

But it is there server and they can kick whoever they wish.

We are always working on new coop missions and have friendly admins and mods who obey a strict set of rules.

Well.. actually it did. lol.

MP was running the first co-op servers and stacking everyone on GDI with it in ladder mode. When the server was full with 40 players the server calculated the points for a 80 player server, seeing as the server just doubles the player count of the larger team to work out points. Then because it was so easy to pwn the bots, spam kills and whore points, after a 1 hour map the points given were fucking huge, and your k/d was awesome. And the best part about it was you never actually lost, it was impossible to lose really, the map didnt end until you won against the bots, or after a long time period. So if you joined the server and played all day you could get an ownage rank really easily, it did to be honest destroy the WOL ladder.

Actually people were so pissed off after a while people started dassing the server and udp flooding it. As soon as we made it un-laddered they stopped.

I remeber thinking at the time, it's funny how everyone used to say "rank doesnt matter", but as soon as MP coop started messing with the ranks (not deliberately) they went so far as to actually doss us.

I'm a vet admin of St0rm and I agree that co-op SUCKS.

Fuck Wilo atm because he doesn't put AoW up, I met him in Boston like a month ago and should have put a gun to his head and forced aow but these allegations (spelling) and shit I could make that crap up about your server too, so I really dunno if it's true.

St0rm AOW used to be the best in my opinion and I used to love it but it has now gone to ruins, I still play there daily with my friends but really Wilo needs to put AoW up. For you guys dissing Wilo personally he's an awesome guy, as I said I met him and we chilled for a few hours so really MAOW

HORQWER you cheated and then applied for mod, so no, you can't have mod and I don't think you're unbanned. Don't come here and bitch, but I do agree w/ you that AoW is more fun.

I remember being on TS with wilo a LONG time ago when he was modifying the maps on his very first Co-op server, at the time I was under the impression that he was the first to do it but I could be wrong, either way it totally fucked up the ladder at the time (half the reason the game mode was popular).

St0rm's co-op isn't that hard to recreate. I know zunnie could recreate it easily. Hell, I may not have mastered all the scripts yet but I know I could recreate most of it.

I do agree that their Moderators are extremely corrupt and crooked. They all hate me over a trivial issue that occurred more than a year ago. They hated me for making alternate radio commands, and I know most servers don't like this anymore but that's not the point; they said I was spamming the commands when I wasn't even playing more than one command at a time. That term 'spamming the commands' sure slays the hell out of me because they're making no sense. So what happened in the end was they hated me and blamed everything bad on me (such as cheaters and spammers) and then I try and get even with them and that just made it worse >.< ...so I left (took me a few times because like one person would tell/invite me back; Wilo himself invited me back the first time but then paid me little attention and everyone still hated me so ya... you get the picture). So, I've never liked St0rm's staff ever again after that, I even tried to make amends (kindly and all) and they were too stubborn to even accept the apology. Who the fuck did they think they were? Well, certainly not God because I know He would accept the apology, but I bet they thought they were God with their powers and such. Those newbies...

He has some run-on sentences.

I'm not 27 I put that birthday for everything and I'm sorry I don't type everything perfectly, and to YuriVA, I agree, I don't like you and I don't really care about your opinion. Your a kissup and a dork that is really annoying and aggravating, and yes I know I get aggravated easily but you piss me off for a number of reasons.

Oh good comeback because that just proves the above of what I said, you have no argument against it, calling me a homo is real mature.
