I am testing out BlackIntel's new anti-cheat software and I busted one of your clanmates using PT hack over and over.

Not only was he using the PT from far away...

Quote:[05:38:04] [phpRenBot]: [32/40|59SFPS|Volcano] BIATCH: WNxCh4mP tried to purchase something from 96 feet away from the nearest PT!

[05:38:22] [phpRenBot]: [32/40|59SFPS|Volcano] BIATCH: WNxCh4mP tried to purchase something from 118 feet away from the nearest PT!

[05:38:40] [phpRenBot]: [32/40|59SFPS|Volcano] BIATCH: WNxCh4mP tried to purchase something from 162 feet away from the nearest PT!

[05:38:43] [phpRenBot]: [32/40|59SFPS|Volcano] BIATCH: WNxCh4mP tried to purchase something from 168 feet away from the nearest PT!

But he also used it in a "flooding" manner from a little closer...

Except for lots of semi-false positives about buying something from inside a vehicle, this new anti-cheat seems to be working pretty well.

Did you ban him from the renguard network?

So does this thing really work then?

Can it give fake reports can lag be a factor and so on.

well I think this is the only glitch, we havent got any wrong bans or something so. Because of this glitch, it doesnt ban on it... just writes to logs.

As WNxBoMbZu said, we have 0 tolerance for cheaters. If you look at our Laws page, it is the very first Law explained in detail.

We are Renegade veterans and have been around this game for 5 years. We get many applications almost every day and have to test and approve/deny many possible recruits. In this case, this fella has magically sneaked in our clan by telling me from the bottom of his heart that he does not cheat and is strongly against cheating. Which is really sick.

As you can see he has not lasted 1 day in our clan after he was discovered. Our action was and is always quick and swift.

Again, this person has brought shame to himself and the tag he is wearing, but unfortunately as you know, things like this happen all the time.

Regards,
WNxHydron
Sergeant Major.
Warrior Nation.

Funny story, this whole thing sounded rotten especially when I remembered hearing a story about a new [ZT] clan member by the name of J0sh. And ofcourse since ZT are confirmed cheaters (even the leader ROFL), and has members like stonecold, atomic, etc I got curious. Dug down, thats how I figured the name "j0sh", but there was more. He wanted to leave and try out for wNx, so he did, and we know the out come. I added him on msn and this is what he said:

Joshua says:

I still don't understand WHY people cheat. Can someone please explain what fun cheaters get from their cheating? Doesn't it get boring after a while? Is it to boost their rankings and climb up the ladder? Please tell me.

Not what I meant. Unsure if everyone else is flaming me or you. But I was saying that they have effective anticheat software. And don't tell me to get help. I don't boast all day long about all my fake wins against people who are newer than 2 months. You never accept a challenge and you have excuses for everything. If you think I need help, then maybe YOU need help. Get over the simple things in the internet and perhaps you should leave. Everywhere I look here, EVERYONE hates you, and I KNOW that you didn't "own" them. Seeing that you make a topic for everytime you kill a person in a game, I see very few. Get a life. Go fight some pros and get over your losses. Seriously kid, get help now...

BTW Don't flame me for "spending 5 hours to write this paragraph", it proves your immaturity even more and, I tend to try and make a point in my words. I might speak for everyone else here, if they agree, just leave us alone and your "GREAT REPUTATION" won't be ruined anymore.

Thanks.

It didn't take me "6 hours" to write that btw. A well 5 minutes. So don't flame me for taking my time in things, even when you are lazy and quick with things.
