It's a free to use HTML template. I've seen it on clantemplates.com.

I didn't even know that troopr02 or something was a clan...I didn't even know they had the same template, but my template is being changed into a black/red version...Then we have different ones.

Perhaps you should read the part where everyone calls you a cheating retard and your IP is handed out to anyone who feels like banning you - it isn't very often I agree with troop, but god damn when he's right, he's right

I am just trying to get some people to join my clan. If he feels like ruining it, I will be ruinin ghis life when he keeps going this way. I will be his worst nightmare. I don't post in his topics and tell him he's a @!@##!@##\$%!#% Why can't he just leave me alone and stay out of this? And why hasn't a moderator even warned him for his offensive language? What is the point of being a moderator on these forums if they just don't care about anything??? Just give me the point of having a forum when every single shithole can just start cursing at someone and ruin his whole clan without any fucking reason! I don't ruin his posts about people joining his clan. Why does he have to ruin

mine??? Give me one fricking good reason why he should!

Shut the fuck up, cheater.

Edit: darksnipa wrote on Wed, 10 January 2007 08:52 I tested the cheat only...I did not spread the cheat and/or bypass. I deleted everything after testing it. It was just to show the effects to players. You can learn from this. Almost every new cheat is now using:

Left click=Instant Kill
Right click=Instant Heal.

Wallhacks are now using the same thing as radar hacks. You can turn them on or off in a second. This is cause of a new plugin created by some cheaters. It's called Renguard_Cheat_Allow.dll, it can hide or show alt models in seconds and remove them in seconds.

I never used the cheats again after testing it. And what I meant with the MRLS thing: MRLS have no reload time. They shoot rockets like a chaingun!!!

Just believe me and don't ban me. After this movie I have never cheated again, this was the first AND last time. All servers I'm banned from on renegade is because of Lang or being accused for bighead, while i'm just a skilled sniper. Other reasons are: Joining the server, owning moderators on forums like Unsucks. Tthom(the server owner) banned me because I was right about something. That's why he is using the rule: Moderators are always right, even if they're not. Ask the Renstation.net players about my sniping, they know what I mean.

Goztow and Crimson I demand you to delete or censor my IP address now! You don't have permission to show it, and computers can be hacked via IP Addresses and I don't want this to happen.

There, I read it. Would you PUH-LEEZE stop lying? you fucking cheated. You ADMITTED to it. However, if you ask if you're honest about the "first and last" part, i'd have to say I really don't believe you. Why would I? The track record so far is you constantly lying over and over again. You're a fucking moron. Ironically, it was the same thread that I said "only a cheater would enjoy the boink of saying "die" over and over again after a kill. Oh how I was right on the money with that one as Cheekay took interest in the boink and 'lo 'n' behold he was a cheater! If you're going to insult troop, don't do it for the fact that he dislikes cheaters like few seem to do. Dislike him for being stupid or something. As for this case? He and anyoen else has a right to criticize your lying, cheating ass because you're a real douchebag. Fuck your idiotic clan and their stupid members (if you have any) that join with a cheater. I mean hell, you even went on to say you cheated in single

player and everything. All signs point to you being a terribly stupid cheater. So why don't you just SHUT THE FUCK UP like I asked in the beginning.

Thanks.

omg, you dumb-ass. The mod gave me permission to test them. The players knew about it. Untill some irc n00b started to get involved and banned me.

And further:

Quote:Lol you all fell for it!!!

The movies were from Cyberpunk, the biggest creator of cheats. I just uploaded his video and used it here Razz Razz Razz. The last video was made by Ninjah a guy I know from some forum.

And I admit, I have been cheating, but only on bot maps I made myself. Not on public servers. All bans on public servers are caused by:

TCUFed my younger brother who thinks he always has to curse at moderators or myself for being accused of cheating, even when I don't cheat. I'm just a good sniper and that makes people think I use aimbot or that I cheat.

Conclusion:

I don't cheat in public. I never make any movies where I show cheating materials. All materials were made by Cyberpunk and/or Ninjah. All bans are for language or being accused for using aimbot while I don't use one. And other bans are for team hinder, because I never go along with rushes. Therefore the rush fails and I get accused for doing the wrong things. I do the same thing everytime, cause I'm an infantry man and not a tank elite/n00b. People think they have to ban me for that reason. Ohter bans might be set because my router was totally fucked up a few months ago, that caused renguard to disconnect and I got auto-forced by the server.

I told you to READ!

Yes, thank you for proving my point. You now just admitted that it was you and that the server owner said it was OK to cheat. And in the exact same post you are saying it was cyberpunk in the video. Obviously one or both of these are a lie, and you need to try and come up with something better. You know, this would be a lot easier if instead of lying at every turn you just admit it instead of being such a "dutch" I mean just LOOK at your response! You just said that it was you testing the cheats and in the very same post quoted yourself saying it was cyberpunk. Do you realize how much of an idiot you are sounding right about now? I mean, seriously, you are getting up there as one of the most idiotic people I know list - and I've known a lot of them.

edit: I have now colour-coded it so show the two messages because I feel if I gave enough effort you might understand how stupid you sound.

The concept is that it is a public forum - 99% of people here want it to be a place where people can talk freely and about anything(ok i made that up to illustrate a point but I feel at least the sentiment is accurate). It's the internet, really there is no need to cry.

The only person to have broken forum rules here is you:

Quote:Cheats/Hacks: This forum fully supports RenGuard along with other anti-cheat solutions. With that said, the posting or advertising of cheats will not be tolerated in any way imaginable.

so be glad "they don't care about anything" or your ass would be banned.

P.S. Could a mod please delete some of those !!!!! from his post - think that is what is stretching this thread out and it's rather annoying.
