Long story short, Im sure some of you remember the drama after a [+TRPM+] member caught {WG}sm0ke cheating then the clan died and other question arose about who else was cheating. Well since then, a kid named "atomicway" has still had problems with me, so he joins a server and lets me know its him. I ask him for a 1vs1 ingame, he dodges (ofcourse), I say then 2vs2, sniping funwar, anything it doesn't really matter, he says he doesnt CW, although he is in a clan and is even a co leader of one(?). Then I unblock him on msn and this happens:

<http://img237.imageshack.us/img237/6492/atomicrk0.png>

^pulls an excuse saying im tired, I ignore it because he finally agreed. So I say ok meet ya in c4u aow, he says no lets go to the bioserv. He has admin there and Ive seen him on irc there before so he is obviously going to go to irc so I just say nah lets go to c4u. He finally comes the map is field:

<http://img177.imageshack.us/img177/3369/game22007041419191468it1.png>

<http://img168.imageshack.us/img168/6044/game22007041419204794dg2.png>

<http://img201.imageshack.us/img201/7378/game22007041419255133yb0.png>

So basically [+TRPM+] VS FA, g?G

EDIT:

since he has been banned on xphaze, and other server he has had to change his name to Visions,

[20:09:55] <TRPM_Bot> [BR] 7 Visions : (66.229.155.14 (09/04/07), 67.22.111.222 (15/03/07))

[20:09:55] <TRPM_Bot> [BR] 7 [FA]Visions[L] : (66.229.155.14 (11/04/07))

[20:10:57] <TRPM_Bot> [BR] 7 66.229.155.14 : ([FA]Visions[L] (11/04/07), Visions (09/04/07), DeadlyDth (28/03/07))

You realise out of the entire renegade community you are the only dork who feels the need to go in to details about every game you play on a forum where nobody likes you, it's pretty obvious he wasn't doing anything for at least the last 18 minutes, but you felt the need to carry on playing and take screenshots as if someone here would actually care that you beat someone who (like you) doesn't even play clanwars.

Yes, funny shit indeed retard.

We have, in fact, already established the "wins" (assuming you mean the one game in the other thread) aren't (or, to use a more grammatically correct word, "isn't") fake.

OK to break down my responses:

1. I beat you, you didn't beat me - I really have no intention of playing you again, you are a retarded, make a big deal out of every game and apparently now don't even want to play official clanwars. Here's my proof - where is yours?
2. There are no fake wins, again you are just retarded and owned yourself on the subject in the other thread by making a series of lies. I played you, beat you and AR'd against the same name in the same clan that you created.
3. The win wasn't for BBF, as the AR showed I was in FaTe at the time.
4. I kicked you from our server when you come in acting like a retard and start pissing everyone off and slinging insults at BBF, why would anyone want to play someone like that? Besides which I have been kicked and banned on occasion from your server for apparently no reason in the past.

So in actual fact, basically every word you just typed came directly from your ass.

wow esassy reply, dug up the only SS you have of winning, and made a video? I see you must ALOT of spare time.

1)we played 3 games, id LOVE to see you deny this, you only show the SS of the game you won?

2)when did i ever say those games were cw's? I cam to you and said "1vs1?" where did I ever mention it was a cw? Please make something up just to add to the holarity.

3)your one lucky fucker I don't have any SS's from before those games to even about 2 weeks ago, althougth i have logs of all 3 games im sure I could dig up.

We played one game, here's the thread I posted it in:

<http://www.renegadeforums.com/index.php?t=msg&th=22793&start=25&rid=20804> strange how you chose to make up lame excuses for the loss but failed to mention how you "beat me on another two maps" I haven't played you since.

You don't have to say they are cw's if you don't want to cw then use a nick that isn't registered and in a clan on cw.cc

Please do *fake* i mean dig up those logs, I would love to see them.

I didn't make you idiot it took as long as it take to type a url: <http://troopsmom.justgotowned.com/>

I think you are confusing me with yourself, aren't you the one making videos when you beat some n00b clan because you are so proud.

So you still have not said ANYTHING to say it was a cw, so I guess you agree with me that it was a fake win because of the 3 maps, you didn't report your losses and I didn't AR. HAH look at pirate, hes a real man, he makes fun on moms, great originality. In all of your posts you've done nothing but prove my points further, and for this I thank you

It is not a fake win if you go on your clanwars nick and fail to to tell your opponent that the game doesn't count. How would *ANYONE* know you're telling the truth unless you were

1. On another nickname
2. Had a screenshot saying "this game doesn't count" or something.

Perhaps you should have just, like, read the rules?

If you saying every single person who has an account on cw.cc (even if it should have been pruned long time ago) plays any kind of game (funwar, 1vs1 etc) with another player who has an account on cw.cc, its defaulted to a cw.cc game? Ya um no. Its what the players state it is, in this case I said 1vs1, he nor I made no mention about cw.cc. That doesnt even matter tho, it just makes cw.cc look more corrupt than it already is because he reg'd a fake win, AR'd "me" and I didn't bother AR'ing him considering he even DENIES playing the other 2 maps, which he lost but didnt report? Wow, Well I guess thats just BBF as usual

Hey Blast if you need a partner I would be more then happy to play, or yet if this troopm02 guy wants to continue playing people 1 vs 1 I would be more then happy to play him. Or if he still has any kind of clan left, we would be more then happy to put together a little 3 vs 3 or 4 vs 4.

Ever post this kid makes, seems like its always got clanwars.cc in it, where he is always talking shit about a clan or a person on there. But yet this kid couldnt hang in clanwars.cc man you need to sftu and go away.

Also, if you ask a clanwars.cc player for a 1 vs 1 or 2 vs 2 so on and so fourth, and you are both on your clanwars.cc name, unless its in a PUBLIC server like n00bstories or some shit like that, if its passworded or protected then it will be AR'ed and the game counts unless stated otherwise.

Oh and you play us in a clanwar, or 1 vs 1, there wont be no gay ass end game beacon shit either, so your pretty much fucked.

Firstly most advantage skins are disallowed on Clanwars.cc. Secondly I think it's hilarious that you likened Clanwars.cc with backwalking the obelisk. If you did some basic research (such as reading the thread that video was posted in) you'd see the clan was reset for it.

Your conclusion is laughable. I've never made rules to please people who don't even play in the league. It's something I wanted to implement for some time. It must be nice living in this bubble of yours where the entire world revolves around you, including communities+websites you don't participate in.

One game does not really constitute participation in my mind, especially since you've moved heaven and earth to (unsuccessfully) debunk it somehow.

EDIT: two, if you count the loss to Wiggles, since you tried equally hard to make it look as if you didn't lose that one either.

EDIT EDIT: I'm also reminded of the time you told everyone here how troopr# "Own3d" me in your server, based on the fact I won both games against him.

I think I've hit upon the reason for your irrational hatred of Clanwars.cc - you're simply a chronically bad loser. In your mind, your feeble excuses about losing are somehow valid... but on Clanwars.cc, the stats don't lie.

Um, the thing with pirate is not the fact that he beat me, but the fact that I bet him TWICE, and since I didnt say ANYTHING about cw.cc or clanwars for that matter, I didn't bother doing anything about them, while the win he got, he ar'd me? care to explain this? do you or anyone else look for people who register wins again clans that are inactive? if so, no way would have happened to me, since you yourself stated that I was indeed inactice

You're pretty damn retarded. If your clan is inactive then just dissolve it from cw.cc. :\ If you would like your wins against Pirate counted, then... wait for it... AR them? The reason that his win counted is because your clan, with your name in it, is on the league, and since it's on the league, its seen as active. If you would like for your clan to be "inactive" then just take it off of cw.cc.

LOL, lets see some proof.

I played you once.

Strange how you forgot about these extra game until now and didn't bring them in to your argument at the time isn't it, especially as if they had occurred you would probably be jerking off to the fraps video you made of it.

Your clan being inactive simply means you haven't logged on, there is no dispute to if you played the game or not troop. You just simply never logged onto the account to report your loss.

Your clan being inactive is not mex's problem, you lost to a clanwars.cc player, therefore your registered on clanwars.cc and so is he, and I'm assuming you played in a passworded server, therefore you didn't report the game you got ARed, not reporting game makes the reason it still showed you as inactive very possible.

Hell if NotKarami would stop posting on forums and logging into his portal he would have been inactive for two months now because he never reports.

That was entirely your choice. If you had filed an AR for these two games you supposedly won, they'd have been added. All you'd need would be a valid screenshot of each game, of the endgame or of you clearly going to win.

trooprm02 wrote on Sun, 29 April 2007 17:25while the win he got, he asked me? care to explain this?

sure. he beat you, he's in a legitimate clan on the league, you're in a legitimate clan on the league, it was in a private server and you were both on your warrior names - therefore it was a legitimate league match. As I've said several times before, if you want to play a game that absolutely cannot count on the Clanwars league, you need only do one of the following

1. leave your clan on the league system (takes 10 seconds)
 2. play on a name which isn't similar to your warrior account (1 would suit you better, I think)

You don't even know what your "point" is anymore, it's changed a dozen times since pirate filed the AR in the first place since you got proven wrong over and over and over again...

Right now, the only point you're proving is what I said on page two about you having an extremely low level of sportsmanship. God knows that's true... boast about every win, go to extraordinary

lengths to convince the world (and yourself) that your losses didn't happen...

Um, *I* haven't played in two months.

have/have not already said?

I think you're getting pretty desperate here. What I said was a rebuttal to your completely stupid
assertion that I disallowed skins because you enlightened me to the "error of my ways". The plain
fact is

- I wanted to disallow them for some time

- while I would take the general clanwars.cc community's input on decisions like that, I would
hardly give yours too much consideration if you aren't an active player. You need to understand
what I mean by "active", because it isn't what you're thinking about. It means having been around
for a while league-wise, being known, actually playing clanwars on a somewhat regular basis, and
oh yeah, actually being able to put two and two together to make something other than five.

You don't qualify as any of the above. That's not really a flame, just another rebuttal. My points
still stand - you're still remarkably unsportsmanlike, you've still been proven wrong about the
Pirate game over and over and over again, and you're still apparently very desperate to make
yourself feel like you've somehow won this argument, no matter how futile it seems to everybody
other than yourself.

CW allows players to choose, virtually every clan server opts to turn off the pedastol because most clanwars are small - You can check by pressing one key at any time during the game, lol.

Simple fact is, 1 game doesn't make a good player or clan. Compete competitively for a whole month, against the best clans there is to play, then you are in a position to comment on beating someone.

Thing is, I doubt troopr and his crack squad will ever do that.

Pretty much every thread he's ever posted in the forum about his clanwar experiences is laughable. He has no real experience of playing a sustained period against good clans, he just picks and chooses his games, brags about winning, and cries and cooks up some weird and wonderful story about why he lost, or why the game never should have counted.

If troopr really wants to be taken seriously, he needs to get himself, and his buddies, into the whole clanwar scene.

Yet again though, knowing he will get found out, he will use many and varied strings of bollocks about how the league is corrupt or poorly run in order to avoid playing there, and avoid losing face, after losing 95% of all the games he plays against the decent clans.

I like the idea of setting up bigger cw's when I know ill have time once in a while, rather than play 6 2vs2 cws a day

It would be possible to test Jelly's theory by setting up a 1v1 between yourself and one of the top 1v1 players... I recommend SS, Poison or myself... and a series against H2O.

Say, ten games... some of them clanwars against H2O, some of them 1v1's against the three players I mentioned, and see how many of them you win? It wouldn't take 23 hours a day out of your schedule, I think.
