Install RG, then overwrite the game.exe with the new one.

Ok, thanks going to try that now

EDIT

CRC Mismatch error!

Did you update renegade with patch 1.037 before installing Renegade? This doesn't need to be done when using The First Decade, though.

You can find the patch at ftp.westwood.com

I always do the update before even installing maps, so I'm wondering what rg has against me.
