ROFL, look at all the faggits support GOKU, funniest shit ive seen in a LONG time, to bad ive seen people in the MP gaming servers better than your ENTIRE community, let alone your shithole of a clan. Want proof? CW anytime buddy, or dodge which ever GOKU wants, but im guessing #2 is more acustomed for you guys

And yes another BBF player got caught cheating recently, but they still EXTREMEly good, well they will be when he comes back after the 3 month ban

acustomed? Do you mean accustomed? Well if your team work and skills are as good as your spelling, I think you should dodge like usual.

But consider 100% of the people who play in your server are actually better than most of your clan members, id think twice, so after you dont complain about lag etc Like I said anytime, not gonna say any more details for now, msn?

Lol shame you havent played in my server for more than 30 mins! or if u have its not when ive been on. Are you a tad jelous that my server is popular and yours isnt?

trooprm02EKT faggits

You are aware that people who try to mark people as gay or as u put it "faggits" are quite often hiding the fact they feel they maybe one themselves. Just a thought.

Erm I Suppose so. Its EKTGoku@hotmail.co.uk But your more likely to catch me on IRC.

ROFL? my server was ranked #1 on WOL on the beta ladder BHS is putting together, back a few months ago when it was fully hosted. You cant say you were EVER better than both jellies, I can. Its only a matter of time before we reclaim that position again. You sir, are a faggot, no other word describes it this well.

Whats your irc? not this sat, got a few cw's already, i could maybe fit in 1vs1, against w/o you want

Goku, just so you know, your server ISN'T popular. It has a high hostnick. troopr02's server is popular, 8 players on a shitty hostnick.

No offense again Goku, but really. I like your server, I used to host it, etc. and it was good times, and I still enjoy my time in there. But, I wouldn't consider it a popular server.

ROFL? 2000+ ping? With diapup (56k), I only got 300 ping. This is whiskey's cw server btw. few

things:

- He didnt have renguard, so he got kicked because full renguard server
 - He has never played a real clanwar, thus had to re-explain basic rules, tell the pases for all the cw servers i had to see if were full renguard or not
 - says renguard lags him, but how do you get 2000 ping without renguard? excuse?

Trooprm02, its people like you that scare the shit out of new Renegade players.

I'd say fuck this game if I was new and came to these forums only to seeing you piss off so many people in so many forums. Like I just wrote in a different post you need to chill the fuck out. You're not Mr. Pro, neither is your clan, whatever ... who cares. You're not terrible, but in EVERY post you make you go on and on about how incredibly pro you are and how everything you touch becomes pure golden skillz.

If you want to prove yourself a better person, do three things:

- (1) Make all challenges, with someone there to witness (that isn't in your clan)
- (2) Take all challenges even if you think you'll lose and don't leave until you have *proof* they cheated.
- (3) Stop attacking people so personally.

Block out everyone else in the world right now, re-read the three things I just wrote ... again ... and then tell ME "I read it fl00d3d and I'll try". If you can at least do that then people will know you're not a brick wall.
