Everytime I download renegade I have to do the patches which take forever. After I do that I go to multipaly internet and then i have to do like another patch and that one takes forever. Finally after i do that and i exit out and go to desctop i get and little pop up error message and i have to restart all over agin. Can someone plz help me?

<ftp://ftp.westwood.com/pub/renegade/updates> -> manually install the patch

Download it and run it. Then create a nickname by following this tutorial:
http://www.renegadewiki.com/index.php?title=Registering_a_nick_on_XWIS

You need renegade 1037 <yourlanguage> patch, NOT the demo patch (that's for the demo...)!

Instead of illegally downloading Renegade, go out and buy it. It's like \$5 USD now.
