Vista users - Run both Renegade (game2.exe) and Renguard (Game.exe) in XP SP2
Compatibility mode and as admin.

Should fix it.

Ok, then Click here

It says "non-renguard" but that doesn't mean it isn't compatible, it just means it doesn't use the
Renguard client to download it.

firstly, dl CP2 then apply compatibility setting to game.exe ONLY - NOT game2.exe
