That is such an awesome name for a Tyrannosaurus. I am sure you would get some funny looks if Alan was your pet and you took him to the vet though.

I'm missing something here, must be an aussie thing.

Reminded me of the good old days:

Not the real commercial but the original was more similar.

I'm not sure where else this had been shown but I think it may be a British advert. In the UK many people use the word birds as slang for women. Maybe it will make more sense now .

It's an American slang, too... just probably not used as frequently.

And what do you call your women? .

On a serious note if you were going with those you missed out slut. I'm sorry to split hairs here but I would have thought it would be there.

PS. You are still the sexist pig as I am merely being fickle.
