just to clear things up, we do not cheat. we havent cheated before and one of our requirments is Reneguard. cheating is wrong and we do not believe in cheating. so if you've heard gossip about us cheating, its not true.

RenCorner used to sponsor AC as a clan.

And there was one dude, who happens to be a high powered member to the best of my current knowledge, who cheats, and man, no one is fucking kicking him out..

trooprm02, bringing that up is completely unnecessary and can easily de-rail the topic. He's just recruiting. Please just PM him about that kind of stuff.

sry for bumping this by lik3 8 topics...
But yea, Stealth doesn't lead AC, he sponsorees it, a lot of people overly mistaken that...

#2:I was a suspected cheater by the VK-clan, because I downloaded maps from www.unrules.com so I could play on there server, and *RGH* came positive for *skins* on 3 servers, I did remove the maps, and went to www.thekoss2.org to get them instead.

#3: I supported matix there, because the people who play on UNrules server think they are the best players in all of renegade just because they are ranked the highest on that single server...
#3.5:I was suspected cheating there because I got MVP from repairing things + destroying vehicles, joining in mid game and RG wasn't running at that time, I just do good when I rush,when im slow and don't care who wins, I suck...

#4:We had a cheater in our clan, for like 2 1/2 weeks.

#5:We are making changes that are improving us, stealths lazyness doesn't always help there

though, as well as me being lazy sometimes...

AC is getting 4 servers, renovated site, and members are patriotic... From what I know, we never left in the middle of a CW, dodged - yes, but when we in the battle we don't leave!
Dodging - We have done because our members sucked at that time (hard to find good members who want to join, so we just accepted any1 practically)-But we play clans like SynC all the time now...

And we will start training more when we can do so on our own servers...

I wouldn't be advertising the fact that he is your server host if you want people to play, as I mentioned to you before his reputation in this community is lower than dirt.

In my experience Dan is clean 100%, never seen anything that would even lead me to suspect a cheat - havn't caught up with you in a while though.

I don't want people saying he leads my clan... it offends me in a way, So I had to bring that up...
And my skills are worse in Ren then when we last played.

ACmatix would be stealth, unless someone else is retarded enough to make a nick with matix in it, which I highly doubt.

That statement makes it sound like you were tested for skins and *cheat name removed*and it was positive?

lol wtf.
