Replace your game2.exe (C:\westwood\renegade\game2.exe OR C:\Program Files\EA
GAMES\Command & Conquer The First Decade\Command & Conquer
Renegade(tm)\Renegade\game2.exe) with this

Helping?

If not, you might have some specialist drivers for hardware (Graphics, sound and
Mouse/Keyboard are likely causes) then it might be causing the problem - Please tell us what
hardware you're using.
