I've tried to play renegade with renguard. It starts checking my map files and it says error disconnecting or something. Then in the window in regard the website shows two links "Always" and "Scripts" which are inaccessible.(The page shows unavailable.) Do you know anywhere i can get maps like "wallsflying" and "cityflying". Please help if you can.

You need to uninstall RenGuard, update your Renegade to version 1.037, then reinstalled RenGuard and try again.
