Hi there.

When using !rehash, the !help command shows all commands twice. Looks like that the command list isn't cleared before reloading it.

Which version of BRenBot are you using?

I'd assume it's 1.5 because Neku doesn't strike me as the sort to be reporting bugs in outdated software.

It could be the 1.51 beta, or an old 1.43 beta..

1.51 bugs should be posted in the 1.51 beta forum only. If you dont have access there you shouldn't be running the beta.
