There are also a few C&C-related songs in his Songs of the Month category (scroll to the bottom of that list and then a bit upward to find C&C Outtakes Credits Theme, C&C Generals Demo, and C&C 80's Mix). Also, it turns out his Renegade Menu Theme is not the one EA used O.o

I Think That It Would Be Pretty Cool If These Songs Were In The Renegade 2007 Mod Or Right Now.

Yes, that flash applet is great because it has all the songs in high-quality. I found it ages ago after I tried to extract the songs from the original MIXs from C&C Gold. All I need is to save the flash applet to my hard drive somewhere.

How can you say BGM isn't 'real' music. Define 'real' music.

I'm guessing you have tickets to the next concert that features Take That and East 17

side-by-side.

Well done on the remix for c&c Chicajo. It's my favorite of the ren songs frank did, and this did it justice.

Edit: Just listened to the other one. Man that's good..... I dare say better than the original which I always thought a bit slow.
Keep it up and I will get that mod purely for the music.

Hmmm, would that work for every C&C game or just Renegade? I'm not too interested in Renegade's music, but there are a few tracks from Generals and Red Alert 1 I'd want to take.

Yes it should work for any other C&C game but not too sure bout Generals or ZH considering EA made them.

It's worth pointing out that the audio from C&C:TD and RA1 is very low quality AUD, however, while the music on Klepacki's site is high-quality stereo.

Thank you! Finally I can listen to my favorite song that (unfortunately) is not available for download anywhere. The "Great Shot" song.

Back then when I played th old C&C, hearing that song was the single best reward after finishing a Nod mission.

Too bad no other C&C game ever had such a great song as a reward.
