Righto I assume this goes here.

Whenever I try to play the maps Volcano or Canyon I can't because it lacks any ground to walk on.

It's only these two that I've had a problem with and I think they have always been this way. I did the whole uninstall reinstall that did nothing so I was hoping someone here knows what might be wrong.

Volcano  
Canyon

Put these files in your C:\Westwood\Renegade\Data folder and see if it works then.
