Just wondering if someone has a high-res version of the new Command and Conquer 3 Nod Logo. I've looked on seemingly every large Fansite and have gotten nada in the process. Can you post it if you do? Please and Thank you.

Is this one ok? I know it's not the final version, but it's pretty good:

There's also a great one for the Scrin here: <http://cactw.vokr.com/galerie/alienslogo.jpg>

JPEG compression.

And I think I prefer the new one. It has more of a sharp edge to it.
