Help please. I have found this game... problem is that the CD1 once was copied to a CDR disc, and the original was lost, bla bla bla

The main problem is that i now have C&C Renegade without a key in the register, and i cant patch the game. Also i cant play Internet multiplayer because of some problem with Westwood Online, Don't even now whats that...

Help Please

I understand that, I mean can anyone say where to find this components?

And please help, Looks like i have wrong Game.exe file, I cant patch it, I have version 1.002

Maybe someone can post where to find, or send to email...

zeratool@mail.ru, Help please guys

You'll never manage to solve this: instead of searching for hours, loosing your time, get 5-10 \$ and buy the game again.
