If you have one please post a link. At the moment I have BF installed but no disks (got nicked) so I cannot play it :\

Need to start playing it again so I can make a good likeness of the Renegade 1942 Mod.

I would have thought using a no-cd would mess up the online play anyway. :/

No-Cds for almost any game at www.gameburnworld.com under "game fixes"

There's pretty much an official Renegade No-CD patch... Just because you use a No-CD doesn't mean you stole a game. I use one for KOTR2 because the disks stay home when I go to college so my family can play. Same with Sims 2.

That's my arguement on this topic as well.
