Once my brother (dummy, never goes outside to play because of games) made a mistake, and my dad got mad and asked to get the game disk out of the PC. Then dad took it and broke it. Unfortunately it was C&C 3 . And then He took other games(GTA SA, C&C, Battlefield 2).

Well, you could force him to pay for a new copy, or confiscate something of his.

Man if that was my dad, i woulda punched him in the mouth.
Then again, being 18, I kinda sorta have no respect anymore

I feel your pain. D:

www.ea.com Check there site and look for there adress, Send them 5 Bucks with the game disk
and ask for a replacement, They should send you a new disk.

Should of thrown it out somewhere and obtain it back if your dad didn't find it.

That really sucks, but did you know that your dad was going to break it?

(GTA SA, C&C, Battlefield 2)

Did he brake those too, if not did you find it back? (Ninja style)

Also, I have C&C for Nintendo 94 =D

That is hard to believe, but ok.

Sneaky... ra2 loved you. I guess you didn't love "ra2, the C-D Game"

You planned this!

Same thing happened to me, but I deserved it.

I left mine outside in my car, in -30 blizzard.

Walked outside in the middle of it, grabbed it, threw it into the ROM, and it sounded like glass breaking in my ROM.

One questions to all these problems.

Did this ever happen when WestWood was in control

Yeah, and strange events started to happen.

Only if there were more glass breaking C-D's and more exploding IN the C-D Rom drive

Who said that!?!

I guess this is what we call, "A Cheap Product."

Yeah, my thought would be either they will send a note back saying, "I didn't understand you clearly" or they won't bother sending you a copy nor any answer because they might be too busy with other things, or they focus on important/supportive things.

Just find a NoCD crack from a secure site.

Is it that hard?

My Renegade CD exploded in my DVD player, While playing i hear a loud bang, and my hole dvd player was ruined + Ren CD, but i took a no-cd thing and dumped the dvd player, the pieces of the CD broke the lens or something, when i opened it, the 'laser' was lying on the cd, like 100 pieces
