The very worst thing about CSS is the fact that immature morons decide to show everyone one of the following pictures in their tag:

- 1.) tubgirl
- 2.) that lemonparty thing
- 3.) and goatse

I got so sick of looking at that crap that the game lost its fun.

Is there a way to turn off looking at other people's tags?

Search FPSBanana For Casey's config, It will improve your fps ingame a little, But definately remove other peoples tags.

P.S: It's a script.

I think the command is "mp_decals 0" in console, you wont see them anymore then.

edit: you wont see ANY sprays anymore then though, not even your own if you have
