making a tower is part of mapping, you have to model your own stuff.

In the Buildings pack from the WW ftp site is a fully textured and functional snipe tower from the SP missions. Its a Nod tower. also has 2 non completed GDI towers. give me a valid link and I will upload or e-mail U the GMAX and or W3d.or U can use the Xcc mixer or Renex to get the W3d from C&C_Sunken.mix. found at cncammo.comas WW owns the rights not me.
