when i did the ren preinstall check it disconnected because always and scips need to overwrite corrupt programs in my ren data directory. The links renguard gives me does not work, can someone give me links for scrips and always i have not installed the corepatches becasue of this, on my new computer and therefore cannot play renegade.

Always.dat or always.dbs?

scripts... err, use <http://4camp.net/scripts341.exe>

Try following This guide to reinstalling to get things 100% right!
