troopr02 please think before you post, you just admitted to an unfair banning. Do you have a screenshot to prove he cheats? Or did you ask him for one before you banned him? GG

ROFL, people really cant read. Im sorry to hear the ottawa education system is failing you sadukar but thats you i guess...

Pure mode? Intresting, if that was so wouldn't you encourage a no advnatge skins tpye poilicy as I do but sooner on cw.cc? anyway, it was so, i was moving forwards, quickly switched backwards, you auto shoot backwards as if you could see me OR you predicted what I would do. I highly doubt you knew I was gonna reverse at that exact second, so it may possible be that you were infact close enough to see my stealthed, in any case, unbanned...

Ask anyone from the league - they'll confirm the fact I was pushing for regulations for skins for quite some time before the rules were actually passed.

You just need to brush up on how long it takes for a stank to cloak again when you get into it, that's all...

Spoony made the rule where no advantage skins were allowed.. Then tons of people complained and said they wouldn't play unless the rules were changed.

^^ quite apart from that, I'd been making overtures about skins for some considerable time before even that.
