Renguard consists of just a few files in the same directory as your Renegade installation. It's registry entries are mostly under HKLM / Software / BHS / Renguard (I think)

i found renguard in c:/ drive but as game 1, but i still cant find it in hkey_local_machine as any of the names specified. the names

register
renegade
 options
 RENDER
 system settings
 wol settings
 url
wolapi
wolbrowser
wwaudio

Why do you want to find it?

Edit -

My Computer\HKEY_LOCAL_MACHINE\SOFTWARE\Blackhand Studios\Renguard

Should be there.
