Hey there I was wondering if any of you could help me add some sounds to my server, by sounds i mean like in some servers if you type in snipe, chicky, burn, etc it will play a sound. I already have the XCC mixer downloaded and I know how to load the Always.dat. From there, how do I make my own list of sounds to add to my server? Thanks a lot!

Also, in level edit, is it possible to make a script zone and add a script to it to play one of the sounds from the always.dat when someone walks through it?

My guess you're using BRenbot. This is something Zunnie posted before. Maybe useful for you.

```
alias FDS {
  dll mIRC_Ren.dll FDS_Send 127.0.0.01 5050 password %msg
}
on *:text:*.#ChannelName: {
if ($nick == BRenBotName) {
  if ($2 == gotya) FDS snda mx0_nodsniper_alt07.wav
  if ($2 == chicky) FDS snda m00achk_kill0001i1gbmg_snd.wav
  if ($2 == skill) FDS snda mxxdsgn_dsgn014i1gbmg_snd.wav
  if ($2 == snipe) FDS snda mx0_nodsniper_alt01.wav
  if ($2 == killem) FDS snda mx1dsgn_dsgn0018i1dsgn_snd.wav
  if ($2 == guns) FDS snda mxxdsgn_dsgn005i1gbmg_snd.wav
  if ($2 == smile) FDS snda mxxdsgn_dsgn004i1gbmg_snd.wav

}
}

```

This is an IRC scripted code that you would need to load.

And the file attached to my post is the .dll for it to work.

There is easier ways with CS bot by just coding it straight in but since you're on BRenbot, this is the only solution I can come up with.

And then what exactly would I do with those text codes that you posted above?

Ugh NR, I can't help you then. That's Nightma's field. I don't know exactly how his bot works if it even has a command for sounds or not. I know general sounds are implemented already but I don't know if there is a command from IRC for you to send any sound to the server for clients to hear.

Well, I already have a plugin for sounds but you have to make it as a command like this: !s chicky or whatever sound. I was wondering how to make it so you don't have to do the !s, just type in the word and the sound plays.
