Never heard of this firewall, looks unsafe to me, I use windows standard firewall and avg anti virus, never had a virus before on my main PC, and it's been 6 years since i've installed windows again...boots up and loads in about 1 minute so it's super fast still..i dont like firewalls....they burnz ;/

I don't use any firewall at all on my PC, I just use AVG anti virus and the firewall stuff in my NAT router.
