Hot to fix those errores:

[2007-07-04 11:34:01] ERROR: - NightRegulator v0.3.5 BETA 7d Debugger - ERROR ENCOUNTERED - DETAILS: "Run-Time error 13 has occurred! Type mismatch", IN FILE: "NightRegulator.exe -- RENLOG PARSEING"

[2007-07-04 11:34:41] ERROR: - NightRegulator v0.3.5 BETA 7d Debugger - ERROR ENCOUNTERED - DETAILS: "Run-Time error 62 has occurred! Input past end of file", IN FILE: "NightRegulator.exe -- bans.ini Flushing"

thats a known error caused by foreign countries using commas instead of a full stop for the decimal point.

Basically scripts.dll is outputted a full stop for the decimal point and NR tries to directly put that into a number variable and your course it crashes as to your system that is text.

This is fixed in the next NR version however.

and.... remove the two blank ='s from bans.ini
