Download this file:
<http://www.game-maps.net/index.php?action=file&id=458>

Once you've downloaded it, point it to your server.dat and that should patch it.

The patch only works (AFAIK) on the FDS, not on the client server (EG: not the one where you open renegade and click host)

I don't know if he was using it for the FDS or not, I was just pointing out that if he is NOT using the FDS it would not work.

For both, client server and FDS, Resurrection can allow games with one team out of players.
