Subject says all.
Just wondering if anyone had compiled all the mult. player buildings, including all the gizmos, floors, etc...

I tried combining them mys,self, but it always turns out extremely messy...

If anyone does, plz post a link...

You don't do it like that, get the version you need here:

(Interiors are loaded automatically)

3ds Max:

OMG
Thx u soooo much!!

...however, I was hoping for more of the buildings...
for example, in the single player missions, the nod/gdi buildings have a lot more stuff in them...

any way to correctly add these??

I have done it, with some of the buildings its a little tedious with some of the buildings however. Basically you have to get one of the asset packs off the WS ftp server, and pull the single player building you want. Some of them have the proxies set up properly, others you have to fiddle with.

Well, could you post them?
I would really love it...

In other words, RenHelp has about everything you need. Check out the downloads, tutorials and

FAQs section. It has almost everything you need.
