Hey i just installed my Renegade on my Windows Vista Home Premium.

I put Renegade.exe and game.exe into admin mode (user acc is admin too) and into Windows XP mode.

I installed Latest Patch (but i have no game2.exe) and i installed the latest directX runtime files.

The game Installs Fine, but after the splash screen, it says Renegade has Stopped working.

Plese help =(

Make sure you right click your Renegade shortcut on your desktop and go to properties, then go to the Compatibilities tab, Click the box so the drop down menu is good to drop. then click "Windows Service Pack 2", Click okay and retry!
