Looks pretty unbalanced for the team that has two sniper spots right outside their base, and the other has none.

I agree, 2 snipers points by one and none by the other, this map looks like Field Only a river and a village. Try a different style.

Maybe you should place a sniper location just to the SE of the right base on a ledge.

looks pretty good probably take out one of those 2 sniper spots or make the other base have an infantry/take advantage at the back of enemy base.
