I remember seeing at one point a model of a destroyed GDI Guard Tower. I would like to incorperate that in a map in a similar manner to the Nod_Turret_Destroyed, does anyone know where I can find this? I may have it somwhere on my computer but damned if I can find it.

Else, if I am barking up the wrong tree entirely, would someone care to make one?

Well.. Neosaber did make a distruction animation for destroying a Guard Tower. It is featured on his maps C&C_Seaside_Canyon and C&C_Seaside_Sunset

I also recall seeing the remains of a destroyed guard tower. But I dont have the slightest idea where I saw it. In other words: I just made a useless post.
