a "dazzle" is the lense flare effect you get when you look directly at the lit object.Eric.

example of a custom
dazzle:http://www.planetcnc.com/sgtmay/images/previews/banshee_prev_09.jpgThis is the same
flare effect you get from the L05_StreetLamp flare but with the two displayed flare textures
changed to a tiberium green color and the halo glow color changed to green.Eric.

Or the lights on things like the Com Center radio tower, and I think I have seen it on some AGTs
towers as well.

Whoa your banshee's weapon looks alot better than I thought it would. The color seems just a little off compared to the TS model though.
