When ever i try to go on renegade a message that says SET YOUR WORKING FOLDER AND
TRY AGAIN pops up and returns me to the first decade game select screen i do have renguard
but some body please tell me how to resolve this issue ty.

```

Right click on the hyperlink, go to 'shortcut' and set the working directory to the directory renegade
is located.

im on Command & Conquer : The First Decade . You cant do that because it wont let you . Are
you talking about : Renegade (the separate game) or The first decade renegade?
