Okay, i thought we'd seen it all but when this happened i was completely baffled - it should never happen.

We were playing in the Crimson Sniper Server on REOL, map was C&C_Volcano_Sniping. Players were npsmith82 (me), bakedawg1, wolver3ene, rim2128 and ShadyCNCU.

It was 3vs1 so as you can imagine, Nod were pretty much dominant in the game after ShadyCNCU left.

I was inside the GDI Barracks with wolver3ne, rim2128 spawned with us and we both shot at him after he'd been running around for a while. For some REALLY weird reason, we BOTH killed him!

As you can see in the screenshot below.

Just wondering if this has ever happened before to anyone - this is the first time i've seen/heard of anything like this. I would say the obvious explanation for this is lag, although neither of us had any lag at the time, so it must've been server lag.

Lemme know your thoughts.
Thanks.

Beerncow and I had the same thing happen on WOL back in November.

[Edit]

The more I think about it, one of you may have gotten a "Spawn Kill". If you were in the barracks and near the PT one my have gotten him just as he spawned. Beer and I were in a building at the time to. [End Edit]

Also I had a buddy over one day and we were both playing on WOL, he got the kill and I got the "BOINK".

I doubt it was a spawn kill, there is a second or two between when you die and when you respawn. My guess would be that you both killed him in the exact same game-loop cycle (more or less, at the same time).

earlier in the previous round... i killed a havok and a deadeye with one shot... as a basic sniper.. i know a havok / sakura could do it... until 2 months ago i didn't know you could do that.. but i did it to two sakura's on k9's server.. and i got accused of cheating / hacking... but the other night was only the second...

on another note... np.. until ack and crimson cool off i seem to be akicked from n00nstories.. you can find me in renevo or unserv if ya wanna chat.. and i'm on ts quite a bit if ya get on there and wanna hook up for a game

I know I saw you on GSA. REOL was empty so I joined GSA came back and there were loads on REOL...

I was lagging a lot on GSA though...

Yep I play as Sk8rRIMuk for all diffrent things but I prefer RIM2128 for sniper games .
