Even the installer should install the readme.txt for the files if not, someones not doing their job right. ^^

Anyways, I do know a few of them.

JFW\_BHS\_DLL < dont use, forces players to use bhs.dll otherwords, will kick players from server (I think it kick, not sure)  
JFW\_Jetpack < Use on a player, can fly or something.

Alot of them scripts you posted are for Reborn.
