ummm i made a plugin from the plugin example file (im new to C++) and i loaded em in my server and it does this

all the way to 100%
and then it crashes... wtf
what did i do wrong??

Hello

Are you able to post/send me the plugin source so i can try to fix this for you?

It sounds like you might have some bad code on the level loaded procedure, i might be wrong, but that's why i need the source.

Cheers.

I think he was being facetious.

Fun Fact: Did you know facetious has all the vowels in alphabetical order? Facetious
