The Renegade mod [[Url = http://roa.mp-gaming.com/](http://roa.mp-gaming.com/)]Rise of Apocalypse: The Dawn of Nod[[/Url](#)] is currently seeking new staff. RoA:TDoN is a total conversion mod for Cnc Renegade. Our goal is to make gameplay and appearances closer to those of the original Command & Conquer.

We currently need:

Several Texture Artists

Several skilled Unwrappers

Several dedicated people who have experience with Level Edit

Possibly someone who could do cinematics

And possibly someone to do a few models.

Thank you.
