O comon put a sock in it. Kamuix's ideas are nice but some are not like WOW THAT'S CREATIVE! So therefore, people are going to figure it out. Stop saying people copy kamuix.

I should give it up. There's already a couple other dozen servers who took the idea. I just wish the mod was unique, and people would come up with their own fucking ideas.

BlueThen wroteOk, I seen several personal hacks out there. My favorite one was a spawner thingy majig. You can spawn anything anywhere. Also seen unlimited credits, character change (from anywhere + is free), and others.

Why can't ***** release some of these hacks? I've only seen a few like *cheat name removed*and a few object hacks.
