I don't know what the deal is

I come home and want to play renegade.. I try and turn it on but it says that it cant get into the master server lists..

My internet connection is just fine..

I then logg on to teamspeak and find out that its not just me..

nobody knows how to fix it..

Some have even reinstalled their entire renegade and it still didnt work...

Please help me

Are you sure this isn't a Renguard problem? It does sound like it. If it's renguard, then check <http://www.renegadecommunity.com/page.php?link=rgfaq#7>
