I have to start like 3 times to just get in the game and after a while renguard just loses the link and i have to restart again losing all the mines. This happens to often. Renguard needs to be fixed.

Either you create a superior anti-cheat, or wait like the rest of us.

Pick.

When Renguard looses its link during a game, then you shouldn't get kicked from the server unless this server uses an outdated bot.

Even if the server is up to date, it's a bandaid fix at best. It just adds tolerance for the flaws in RG :/
