This morning I had the idea to use sgtmays animateble havoc model for a comic (a bit like garrys mod for half life^^). So this is my result from the whole day: (animated .gif)

A hard hit by the the fist of Nod.

Thanks to Kr1s and M4rlex for their help ingame.

I could tell what was going to happen as soon as I saw the "secret weapon", but it's still funny as heck. Nice job

It's great, but I think it would be much more enjoyable in a comic strip (jpg or png) rather than an animated GIF.

That's www.ytmnd.com worthy. Blend it with a random music file, and you're an artist.
