1. Beacons

SSGM 2.0.2 Beacons plugin

This plugin has 2 parts to it, the first allows you to block/allow beacon purchases
The second is the part of the SSGM beacon code that displays laid/disarmed/detonated

1. Beacon purchase control

Console commands

beacon_allow <ID> allows a player to purchase beacons

beacon_disallow <ID> blocks a player from purchasing beacons

2. SSGM code changes

Stops players from laying 'fake' beacons in their own base

Shows the player name had their beacon disarmed and players beacon that has detonated

([BEACON] player1 attempted to deploy a fake Nuclear Strike Beacon., [BEACON] player1
disarmed player2's Nuclear Strike Beacon, [BEACON] player1's Nuclear Strike Beacon has
detonated)

Hex

Download

2. Defences

SSGM 2.0.2 Extra defences (rebuyable)

Allows you to have extra defences on any map at any location with the ability to rebuy defences
by picking up a powerup disk that donates credits to the rebuild fund, including default map ones

You can also set the chances of having defences enabled by setting the percentage in plugin.ini
(BaseDefence=xx)

Build costs

Turrets - 1400

Towers - 2000

Nod Gun Emplacements - 600
GDI Gun Emplacements - 600

Adding new base defences is quick and simple

console command

savecords <turret/tower/nodemp/gdiemp>

All build costs double when your team has lost its powerplant

I wanted to try the Base Def one too. It's a bit like the Black-Cell mod.

Xpert wrote on Sat, 25 August 2007 11:41 I wanted to try the base defense one tbh D;

:/

Download Reborn's "rebBD.dll" plugin... It has features the extra base defenses :/

I have it. I'm just interested in seeing Hex's version since it had a console command.

Quote:SSGM Base defences 1.3

Defence options - this comes in 2 parts.

Enable extra defences.

This gives you the option to have extra defences on any map (Gun emplacements (AI controlled), Nod turrets and GDI towers). You can use a chance system of them being enabled using `ChanceDefences=xx (%)` or have them permanently turned on/off using `EnableExtraDefences=0/1` and `ChanceDefences=xx (%)`

New locations for defences can be added by simply standing in the place you would like them and using `savecords turret/tower/nodemp/gdiemp` (console command)

Enable defence rebuild

If you have extra defences enabled or just want to be able to rebuild the default defences on a map you can use `EnableDefenceRebuy=0/1`. Rebuild costs can be set as shown below (cost of rebuilding doubles when the teams powerplant is dead)

Defence rebuild costs:

You can set the cost of rebuilding the defences in the ini (all costs double when the teams powerplant is dead)

```
TurretRebuildCost=1400  
TowerRebuildCost=2000  
EmpRebuildCost=600
```

Updated to 1.4

Fixed a bug were the disk would not respawn if the enemy picked it up.
added amount left required to rebuild the defences

I'd like to say thank you to Daniel (RoShamBo), James (dead6re) and Lee (pvtschlag) for certain parts of code used in this plugin and bug fixes

Hey HeX,

Would it be possible if u can put the beacons script for ssgm online?...

regards FreaX-NL

PS:Thanx for the defence plugin...it`s wors fine

[View Forum Message](#) <> [Reply to Message](#)

It's included in brenbot.dll, an SSGM plugin Hex made that was released with BR 1.52

[View Forum Message](#) <> [Reply to Message](#)

brenbot.dll will still work with SSGM even if you use NR, but NR does not have a plugin supporting the additional commands you can use with it.
