SO today i was looking on planet cnc, and look what i see

<http://planetcnc.gamespy.com/screenshots/?ss=1583>

My art with scrin logo on it and the source claiming it was his image, if you read renforums, it's my image, if you look at the image, my name is on it on one of the screens, you can read it says AoBfrost very very very lightly on the second screen from the left, everything has been kept the same, but the logo and source claiming scrinoid made it....

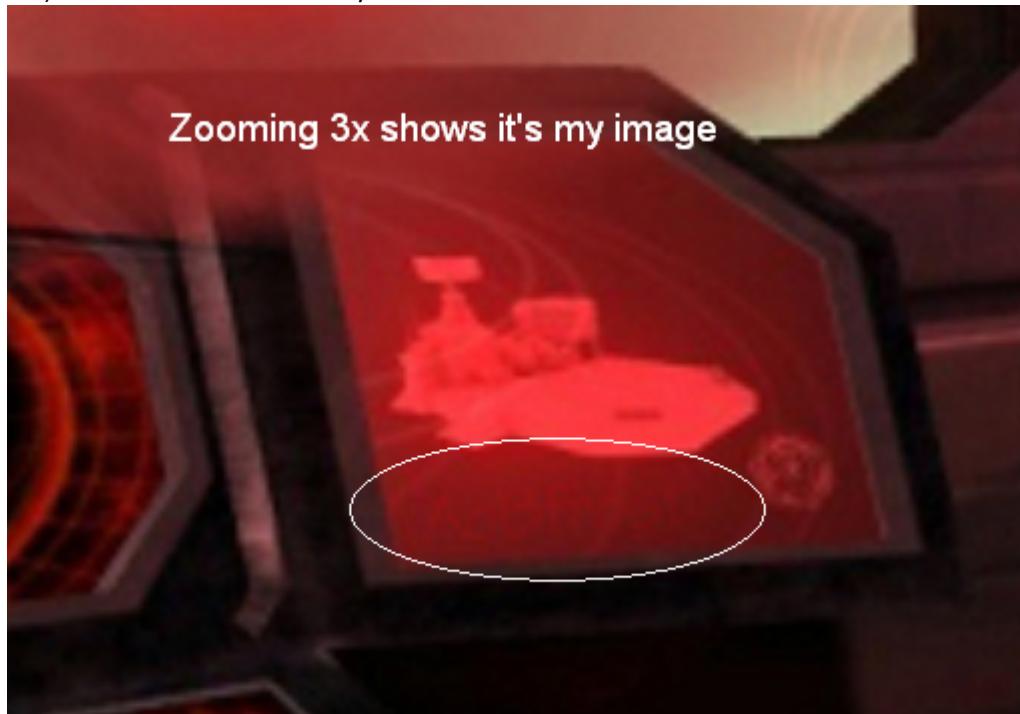

I am angry

<http://pnmedia.gamespy.com/screenshots/pcnc/40646462.jpg>

See it does say aobfrost.....

I was bored and uh, checked it... and he's correct.

Shame on scrin, I guess? Didn't notice that in his "Meticulous" editing of the pic.

took me about 15min to edit, couldnt think of much stuff to do.

OMG THAT NUBCAKE

HE EDITED MY PEACE THROUGH POWER, he did edit the original image into his own, scrinoid, your a jerk for submitting this image as your own even if you did edit it slightly, the original image belongs to me, I have it uploaded on my photobucket way before you even contacted planetcnc, so you cannot claim you made the image.

The "Peace Through Power" text completely ruins it on that screen if you ask me.

Also, Nice art.

Thats not the point, the point is, he stole, edited, and sended it in as his own, I'm the maker of the image, and now the thousands that go to planetcnc daily think scrinoid made it.....what the crap.

I'm saying he fucked it up by editing it and adding the "Peace through power" text.

Also, Is 'fame' the only thing you want from 1000 of people?

No, but everyone saw the photo thinks he made it...

Plus that's mine, mine says peace though power, his is edited out and blurred if you have a "photoshop" eye, a lot of stuff is too messy if you zoom in, meaning....it's edited, the one in the first post is his, my other post quoting myself shows MY ORIGINAL wallpaper....

AoBfrost...I feel for you man...I know how it feels. I am a 3D model/computer graphics person myself but I never posted any of my works online due to this kind of thing happening.

I hope everything works out for you.

YOU MAKE NO SENSE!

Some guy made it yeah, obviously this someguy you stole the image from is named AOBfrost in the previous post, and the problem is me? I'm not the one stealing art, saying someone no named made it, and the nclaiming it for yourself, all you did was use some blur and erasing, then recolor a few spots to look cleaner, but I could have done that myself, but I didnt because I made it the way i wanted, Scrin dont steal more of my art, and next time you sumbit something onto planetcnc, I'd think it would be nicer to give a sourcename other than yourself if it isnt yours.

You do notice scrin is using the tiberian sun score board mod. I have seen it for download on a few german renegade websites, but since I dont speak/read german, finding it is too hard for me, but the main point is, thats renegade, not reborn.

I think that Scrin doesnt even bother to post in this thread because he knows he stole it and just doesnt want to be personally bothered because he thinks he can get away with it if he just doesnt post, my image was finally removed from the site after 2 days of recieving the email saying it was already deleted (dario is slow), but he did fufill his promiss, so, I guess all is good now, this makes me want to watermark everything i make now so when people use it, I can use their own "creation" against them.

you do notice in coop you can stand in the same place and kill the bots where they spawn and just pointwhere, alot of people do that if their too afraid to go out alone when theres nothing but bot snipers, so they just point where 1 guy.
