Well, during a recent clanwar, out of no where I started getting spammed with messages buy someone with the name "ace700". I know the ol' request denied thing, but this guy was spamming me with the same message and in the middle of the clanwar, my fps went from 120 to about 20. Here:

^^Anyone got his ip, and can people with access to the IPBot do a quick !ipsearch on this guy?

ROFL, just did a Google search and I already think I know who it is:

<http://www.matchmaker.com/mm/men-single/ontario-hamilton7.htm>

^first thing that showed up in google, its a gay lovers website for gays in hamiltion, scroll down the list and a guy by the name of "ace700" is listed. And his profile reads, " liek to work on computers" etc.

http://forums.afterdawn.com/thread_view.cfm/509628

^the person also has an modded xbox

Heres how this all fits in. Its that Renerage guy "bbfcheck" from hamiltion, and heres how you can peice it together:

- 1)bbfcheek doesnt like me because hes a known cheater
- 2)he himself said that he has a modded xbox and how it was better than people with ps2's
- 3)that matchmaker profile fits his age, and his like of computers, and it states hes from hamiltion.
- 4)all the same EXACT nicknames, and how common is "ace700"?

Unless every signle of those is just pure coincidence (0.00000001% chance), then only then is it not him. I already know his ISP's (he has had 2+) and his former IP's, so if anyone gots info on the

IP of "ace700" I can prove my point that much fuller.

Thanks for the IP, if he isn't using a proxy, then hes from austria. But thats awful late for someone to be on (2am austria time), so they were probably routing their connection thro a proxy

Nslookup shows his ISP, google shows this:
